Music to touch the heart, mind, body and soul, something for everyone, with some fun thrown in too. 14 MP3 Songs URBAN/R&B: Soul, URBAN/R&B: R&B Pop Crossover Details: Review: "Beautiful, simply beautiful -- a fantastic DVD package that really captures all the charm and charisma of Eric Roberson -- easily one of the greatest soul artists working today! We've always loved Eric's music on CD, and we're happy to say that we've put it in the hands of thousands of customers worldwide -- but we're extra pleased to have this DVD package, because it wonderfully presents Roberson in his full glory -- singing songs live on stage, speaking a bit between numbers, and even sharing his ideas in a few bits of interview footage. The style of the program is great too -- as it interweaves the live material with more documentary type footage -- using color and black and white, close ups and long shots -- really varying the image up to keep things interesting, instead of just offering a static shot of a single concert! Expanded package features the DVD, which includes 13 numbers, plus an additional live CD with 14 more tracks -- and the whole thing also includes a bonus "behind the scenes" featurette, with a sneak peak at the new album, interview with Eric's family, photo gallery, studio tour, and more! Songs include "For Da Love Of Da Game", "Right Back To You", "Pretty Girl", "Def Ears", "Rock With You", "Don't Change", "Obstacles", "Please Don't Leave Me", "Find The Way", and "Past Paradise."....Dusty Grove America
