Delivered in style by some very talented American musicians and singers, this recording will have your toes tappin', your head thinkin', and your heart breakin'. Check it out! Since his late-teens, and after a brief though critically acclaimed career as an air guitarist, Gavin has been playing piano, composing music and writing lyrics. Gavin likes to describe his songwriting as Nashifornian; a fun and friendly crossroads of the Nashville and California sound. Gavin's lyrically honest mix of heartfelt to humorous storytelling, lush vocal harmonies, hook-filled melodies, and familiar yet fresh chord progressions make for good ol' home cookin' for the soul, and candy for the listener's ear. Presently, Gavin is shopping his extensive song catalog in Nashville and is looking forward to placing his songs with Country Western music's finest recording artists. Gavin's recent successes have included featured vocal on NBC's Passions, inking publishing deals with Transition Music in Los Angeles and Access Music in the San Francisco Bay Area, composing music for a science adventure television pilot, as well as writing children's music for the HotZoo company. Gavin is a published member of ASCAP and The Songwriters Guild of America.
