Acoustic pop-rock 11 MP3 Songs POP: Folky Pop, FOLK: Folk Pop Details: Here's what people have to say about TIME FROZEN: "Hmmmmmm....,interesting..." "Exquiste,irresistable,superb,virtuosic...", " And that's just the cover art! "Upbeat songs with a very nice energy...Great imagination and a very sharp wit." KINK FM 102 "The James Taylor of Clark County... Swatosh saunters from one catchy riff to another... Bursts of power-pop mania." WILLAMETTE WEEK "Kirby Swatosh is a magnanimous spirit who has the inspirational genre down to a science, and Time Frozen incessantly hammers this point home. Swatosh explores the placid, good-natured temperament of mankind." "GOODBYE" opens TIME FROZEN, setting the stage for the string of good will wishers and glowing halos of benevolence that evolve into succulent aural pieces as the album progresses. Swatosh's heavy-handed acoustic guitar strumming resonate, tapping deep into the uplifting vein pulsating through TIME FROZEN. Themes of aging and a return to a more comfortable time in one's life are addressed in the plaintive"Getting Older", with Swatosh's sparse guitar parts propelling the song into a orb of giddiness. Time Frozen is a acoustic guitar show case that is at once peculiar and emotional, raw and goofy." THE ROCKET Song number 3 from TIME FROZEN "SPACESHIP", has been adopted as the official song of Toy inventor Brian Walker("ROCKET GUY") of Bend OR., who is building a rocket to launch himself into space in 2004.
