Guitar driven fusion 8 MP3 Songs ROCK: Modern Rock, METAL: Alternative Metal Details: Madron...was an accident, with the demise of my last band, I didn't want to get into another one. I purchased a 4-Track digital recorder and started writing, and loved it. I decided to buy an 8 track studio in a box and that was it. Madron was born. Everything you hear (apart from the additional production) was recorded with a Boss studio in a box. All recorded in my front room and on a shoe string budget. My friend added the vocals and has done a fantastic job. It was then all burn't down onto WAV files and taken to my best friend's studio at Meadow Music Media. He brought the songs to life and made a dream come true and added additional production...he done a brilliant job...don't you agree..... Now make my dream really come true... and if you listen and it touches your soul... I suggest you need to buy it and enjoy it cause it will stick in your brain. MADRON(2004)
