A unique collection of songs for and about dogs. Each song speaks up loud and proud for man's best friend, inspired by case histories of cruelty and highlighting the need for compassion towards homeless animals in society today. 18 MP3 Songs in this album (70:32)! Related styles: EASY LISTENING: Adult contemporary, EASY LISTENING: Soft Rock People who are interested in Tina Turner Melissa Etheridge Janis Joplin should consider this download. Details: This collection of songs, released to help homeless and neglected animals, is dedicated to the memory of precious Regina. Regina was a nervous homeless dog who had been taken in by kind volunteers at a shelter in Spain. Sadly one night the shelter was vandalised and Regina was too petrified to run away. She was tortured to death. Regina deserves justice and all animals in shelters should be safe and far from harm. We would like this CD to represent a global effort of care and compassion towards those defenceless dogs, who, through no fault of their own, find themselves abandoned and at the mercy of human kind, for better or for worse. Some songs on this CD are inspired by case histories of cruelty, others are memorial tributes to pets passed over the rainbow bridge and some were written to highlight the suffering of man's best friend. We would like to thank Paul. D. Richmond, aka Zest and the team of Keep The Green Alive, for making the release of this cd possible along with the participation of countless friends, known and unknown world wide. All funds raised from sales of this CD are donated to small not-for-profit animal rescue organisations and copies are given freely to those in most need.
