Acoustic finger style guitar, ballads and some slide guitar touching on the many musical forms and moods learned through years in the craft. 11 MP3 Songs FOLK: Folk Blues, BLUES: Acoustic Blues Details: You never know when a certain song is going to get you, so this CD is a bit of a compilation of many styles, moods and driving spirits that have moved me through my particular trials and tribulations. One thing is certain, if you are into the acoustic guitar then you will find a number of choices within this CD that will keep you wanting more. I've been playing the guitar for 30 years now and have found my niche. These songs represent my personal picks out of a list of original tunes. If all goes well there will be a follow-up CD. Most of my time playing was done between California, Hawaii, Washington, Oregon and Vermont. Seeing other players up close and working song circles, hoots and other small venues has helped create some of the styles and techniques incorporated here. I've played small to large rooms and events around the country but now reside in northern nevada where I perform at museums, coffee houses and private parties. If you find yourself wanting a live performance in your area just email me for more info. Any questions on the special tunings can be answered as well.
