Then, ominous clouds appear on the horizon. The wind starts to blow as the thunder claps. A beautiful morning just became a soggy autumn afternoon. The wind brings in a chill as the music takes on a more cathartic tone. Morning Contemplation creates a complex environment of wind and water. Ranging from serene piano, to ambient, to pure electronica, this album is a delight for the imagination. The album starts out with a beautiful morning soundscape. Peaceful Contemplation. As the dark clouds roll in and the wind picks up, Autumn Chill brings in an emotionally charged, soul twisting piano solo played stoically in a soaking thunderstorm. As day turns to night, Dark Clouds fills the soundsphere with a dark atmospheric ambiance, with the storm passed in the distance. Stormy Night and Nighttime Groove introduce a mellow beat into the music, while the storms continue through the night. Overall, the album flows as one complete soundscape, capable of clearing the mind and relaxing the body.
