a unique blend of adventurous spontaneous, organic and very creative trio jazz with a great feel. 9 MP3 Songs JAZZ: Free Jazz, JAZZ: Jazz Fusion Details: Trio Alchemy is pianist Bob Weller, drummer Tim McMahon, and Bassist Rob Thorsen. We are a highly Improvisational group that feature our original compositions as well as arrangements of current and traditional jazz songs. We are all professional musicians with varied backgrounds but have found that the particular chemistry of this group is unique. It allows us the freedom to formulate and create without the traditional boundaries often imposed on musicians. This cd is a culmination of playing together for the past 11 years. It represents where the group has evolved to during this time period.
