Tweeting When Youre Away From Your Computer Has Never Been Easier Spend Less Time on Twitter While Making More Money By Using This Easy To Use Script That You Control With No Monthly Fees! Sit Back And Relax And Give Your Twitter Followers Valuable Content While Youre Away Thatll Turn Them Into Raving Fans.. Date: Thursday, February 11, 2010 From: Dear Marketer, Wouldnt you agree that Twitter is one of the hottest things going right now in the online marketing world? Everyone and their mother is signing up and getting a Twitter account. Shouldnt you be leveraging the power of Twitter for your benefit? Of course! But what bugs me is there are so many services, software, scripts etc out there dedicated to helping you profit from your Twitter account.. but to benefit from them, you have to pay a monthly fee. Or if its a one-time payment, its for \$197, \$297 etc...Not exactly peanuts. And well, I know for many marketers out there just getting started, they just dont have the money to invest. So many dont even bother with trying to profit from Twitter due to this one little inconvenience.. Twitter is all about relationships and about building a good rapport with those that follow you. Once you have a loyal following of fans you can direct many of them (even hundreds or thousands) to whatever website you

want all for FREE! This is the power of Twitter.. Because if you have a ton of people that look up to you, respect you, or just think the stuff you tweet about is cool... you can get lots of eyeballs to things you recommend.. and lots of eyeballs on whatever website you want could mean lots of profits for you! If youre like me, you might have thought or be thinking, Thats all fine and dandy but who has time to tweet every day and get followers? I sure dont! Look, I know what you mean.. Im married with two sons under 3yrs old and another one on the way! :) I know exactly what you mean about not having time to tweet every day. I am not one of those super Tweeters that are glued to their Twitter accounts all day long. Ive got things to do and there are days when I dont remember to tweet... So how can I keep in front of my Twitter followers if I forget to log in sometimes? Well, I knew that when I dont tweet, those following me dont hear from me... and that means I am just leaving money on the table. So I thought to myself, What if I could have a script that does just that.. send tweets for me like an autoresponder? I knew there are services out there that do this for a fee that also include all sorts of other stuff I can do with Twitter.. But I dont need all of the other stuff.. I just want my Twitter account to work for me when Im not online! Plus some of those sites are just way too cluttered and confusing to where I dont even want to fool with them or even know where to start. Well after talking to my coder, we developed an awesome, easy-to-use system that allows you to do just that... an autoresponder for your Twitter account that anyone can use!
