

Car Website Header (3in1, 3psd+3jpg, 750x150px, Hi-res)

[DOWNLOAD HERE](#)

Hi there! rite now i am making a quick and simple solution to have a high quality header graphics on your site or blog about "CAR". By now, you may have seen some websites offering hundreds of templates that are low quality, with little thought or creativity goes into each design. And it can be very embarrassing to have them placed at the very top of your webpage. So, don't wade through these tons of low quality stuff anymore, cause Ill give you the quality ones now. So if you also concern about quality, Ill show you some of the web headers I made for you. I've made 3 headers about "CAR" ; 1. CAR CARE 2. CAR SHOWROOM 3. LIMOCAR All the web headers in this package come in 2 file formats : JPG Format (blank / without text) The web-headers come in blank (no-text) templates. Just open the JPG files in any graphic program of your choice, type in your text and save the image. There you get your own web-header ! It's easy to work with JPG images ! And you can even add some of your own images if you want to. PSD Format (Photoshop) PSD files give you even more flexibility to change and customize your own web-headers. Every single template element is on its own layer, so its easy to change the color, text, position and/or look of the header. You can easily edit these PSD files with an image editing program such as Photoshop, Fireworks, Paint Shop, Gimp (Free), and many more. If you don't have any of these

programs, you can get Photoshop for a 30-day free trial. I am also providing the font, just in case you didn't have the required font. Feel free to contact me at: 1. email : b3stprice@yahoo 2. twitter account: bestprice2 Sincerely yours, BESTPRICE
