An eclectic mix of southern rock, modern country, and alternative 14 MP3 Songs COUNTRY: Country Rock, ROCK: Folk Rock Details: With the help of musicians via the internet, I write songs(which include the melody and/or lyrics) and record them to make a finished and complete song with me singing lead and backup. Sometimes, other musicians sing as well. As a writer, my influences are Don Henley, Jewel, Carol King, Dolly Parton. I love stories in song and like to focus on a story and lyrics more than the arrangement. Vocally, I am told I sound somewhat like Jewel and Olivia Newton-John, but I have also been told that I have my own unique sound. What sets me apart from others is that I am adaptable to any type of music. I love it all! Other CDs available on MSN MUSIC,CD BABY, and LULU.COM: Two Hearts, Nashville Nights with Donna Frost, Rainbow Journey and From the Ashes with Coalition
