Electronic Cerebral Mutations for the incendiary Neophyte. 15 MP3 Songs ELECTRONIC: Soundscapes, ELECTRONIC: Ambient Details: Continuing on the path of electronic experimental mutations, this two CD set by S Hacek brings forth the concepts and ideas first presented in their debut CD, "S Hacek".

Combining digital and analog synthesis, field recordings, samples, software generators, Moog synthesizers, S Hacek weaves this auditory matrix into a visceral vision of the human psyche, invoking emotional reactions at opposite sides of the spectrum... "...what are you trying to do, give people nightmares?!!" "...it was really soothing"... Each listener brings forth their own unique life experiences, their vision of the past, present and future. And with each listening, new concepts and ideas arise. S Hacek merely provides the soundtrack to those visions.
