Formed in 2006 from the ashes of 'Alt-Chamber Music' trio called 'WEI', 'XD WEI' has an unlikely and flummoxing sound that draws from each member's diverse background. The sound has been described as "undescrivable". Led by classically trained erhu player and vocalist, Xiao Dong Wei, the band utilizes Paul Henry Ossy's (an original member from 'WEI') strong jazz/prog-rock tendencies on mandolin, woodwinds percussion. Paul has recorded with Catalyst and plays mandolin on the White Stripes' 2nd cd, De Stijl. R. Leo Gillis plays bass and sings. Djeto Juncaj plays guitars, banjo, qyteli, etc. and has recorded and performed with Granfalloon, Immigrant Suns and CIA to name a few. All four members contribute to songwriting duties and Xiao Dong sings in Mandarin and English. Listen to the samples for a better idea.
