Who would not like to prove attractive and to fascinate? To Â«fascinateÂ» bears the connotation of "producing a spellbinding effect or enchanting through one's look or speech". The present book is devoted to the power of the eye and the secrets which are correlated to it. In this book you will find a series of rare exercises and techniques on the real practice of hypnotic fascination. The present work on magnetic gaze is the companion book of "hypnotic fascination". Together you will have the world's most profoundly comprehensive texts on this subject. The techniques exposed have their roots both in practical experience and in the attentive study of all the relevant literature we have been able to lay our hands on. We have accordingly referred, in the course of our footnotes, to hundreds of varied historical, scientific and experiential sources.
