Harmonious looping miniatures in today's world. 6 MP3 Songs in this album (37:35) ! Related styles: CLASSICAL: Minimalism, AVANT GARDE: Sound Art People who are interested in Johann Sebastian Bach Philip Glass Steve Reich should consider this download. Details: It's always something. The 3 somethings here each include 5 of our looping miniatures. A characteristic maintained in each is 2 shorter, simple loops, but of contrasting length, and around which circles a larger loop or loops. The larger loops do their best to shape the musical space and every loop involved is to be evenly spaced within itself, as a rule. So we have what is a simple loop, a simple loop is comprised of single notes, not of musical phrases as are the larger loops here. Hear the loops individually, hear them exist together, and back. The final 3 tracks complete the Always Something program. Please enjoy it all.
