Country-fused-Rock delivered by one of the best in the biz. 12 MP3 Songs COUNTRY: Urban Cowboy, COUNTRY: Modern Country Show all album songs: Southern Signs Songs Details: Hailing from the rugged outback of Jackson Hole, Wyoming, The Riders music has been influenced by the freedom of the outdoors and the elements and situations that make up daily life. That influence is felt in every self-penned song on his freshman CD, My Way. His singing has been likened to that of Gordon Lightfoot but edged by the grittiness of Merle Haggard and Keith Urbans delivery. As a writer, The Rider masterfully paints mini portraits of familiar life stories in his songs. At fourteen, The Rider began crafting songs and performing them in public. With musical influences that have ranged from Merle Haggard to ZZ Top, The Riders musical style has grown over the years into a unique sound that has come to be known as Rider Country. The Rider came to Nashville to record this CD because it was the only place he felt he could find the studios players that could translate his music from what he heard in his heart to CD. Among some of those players that he found were Bob Miner Denny Hemingson from Tim McGraws band, The Dancehall Doctors, who played Acoustic Guitar / Mandolin and Pedal Steel / Lap Steel Guitars respectively. His CD, My Way is aptly named. These twelve songs have come from The Rider doing life his way There are some really rockin country uptempo tracks like Lets Get Down and Hey What Do You Say; some grooving mid tempo tracks like Still Want You and Doin Fine Yall; a funky mid-70s pop sounding track, This Time and a couple of mellow, introspective tracks By Your Side and Hello Brown Eyes. The Riders life revolves around his wife and three boys, riding his horse to the upper lakes at his grandfathers ranch in Idaho and making the music that delivers gut wrenching honesty in the true life snapshots contained in My Way.
