

Mp3 Jaya - Wheel Of God

[DOWNLOAD HERE](#)

"neo-ancient" - a re-calling of vibrations and rhythms from the sacred adjoining realms 5 MP3 Songs

NEW AGE: Meditation, WORLD: World Fusion Details: This music arises from the source of all, and calls us to stop, look, and examine our spirits, minds, and bodies. Jayas study and practice of yoga and Eastern thought and a journey to Tibet and Nepal have brought this music back into our availability. Described as ceremonial, this music allows the user/listener to create whatever body practice, meditation, or contemplation their own wisdom dictates while providing the vehicle in which to make the journey. Wheel of God is comprised of ancient acoustic instruments and drums, transcendent vocals, and modern rhythmic settings set in multi-tonal harmonic structures that frequently defy analysis. While each song is its own journey, each begins gently, but steadily expands to solid grooves, countless styles, and sometimes dizzying heights. The total architecture invokes an alpha state suitable for participative listening and inner work of all types. Namaste.
