Contemporary singer songwriter folk with a lot of traditional influences 12 MP3 Songs FOLK: Modern Folk, FOLK: Traditional Folk Details: John Ferullo is a New England based performer who writes his own songs and covers contemporary and traditional folk songs. His first CD ""Real Good Day" is a collection of John's compositions. The songs are stories of real life, except possibly "Cats" which is plain silly- but fun. John Ferullo writes about important things with his stories about seemingly small things. His beautifully crafted songs gently reach the listener with lovely melodies, his home-spun voice, and well-played guitar. What always comes through is his warm heart. His CD "Real Good Day" is a very enjoyable recording! John sings and plays his songs with honesty - you feel you know him when you listen. Seth Connelly produced and engineered the album; his arrangements and his studio musicianship help to bring John's songs to life. Superb musicians Billy Novick, Lissa Schnectenberger,, Joe Barbieri, Hatrack Gallagher, Elizabeth Mandrioli, and Bernadette Wiemer lend their instrumental and vocal talents to this fine album."
