

Mp3 Kriss Dek - Free

[DOWNLOAD HERE](#)

Powerfull electro house release with a progressive touch. Kriss Dek brings an hypnotic track that will burn your dance floor. Already playlisted by international djs from all around the world (USA, Russia, France, Belgium and Luxembourg etc.). Has to be di 2 MP3 Songs in this album (10:54) ! Related styles: ELECTRONIC: Electro House, ELECTRONIC: Progressive House Details: Take a pinch of groove, catchy rythme on a few deep basses scattered with atmospheric melodies as well as sensual voices and you have the mouth-watering mixture that represents the musical universe of Kriss Dek. His great advantage of being at home in Funkyhouse as well as in progressive beats makes it easy for him to propose to his public a high quality music program. For years, he mixed in the most beautiful clubs and bars of Belgium's capital Brussels, where he was born. The gained experience made it possible for him to perfect his technical mixing skills but it also allowed him to develop a certain feeling for his public. As much as he loves Brussels, he felt it was time for change and decided to move to Luxembourg where he continues to do what he loves by working with well-known DJ associations like Housedeluxe and Borthers. Recently discovered by different electronic music labels, he starts his career as a producer in May 2007 by releasing his first deep house track *make me hot* under the Brussels label *Selecta Beats Records* to continue in October 2007 with the release of his first remix of the track *be my love* by DJ Salah under the *Gaga Records* label in Luxembourg. At the moment, he is working on a series of remixes for well-known artists, planned to be released in 2008. If you come to Luxembourg, please don't hesitate to stop by at one of his gigs. You won't be disappointed and it is with great pleasure that Kriss Dek will let you experience his musical universe. Surely, without his passion for music and mixing he wouldn't be working as a DJ and producer, but what really pushes him to cross the limits of his art is the love and energy that his public gives to him while he performs.
