Mind Melting White Trash Blue Funk. You know The Real Stuff. Funny, Real, and Groovy 16 MP3 Songs

BLUES: Electric Blues, BLUES: Rockin' Blues Details: Biography of the "White Trash Blue Funk" band from Reno Grown from the Reno blues scene! The Boogie Monsters are a fun, entertaining, and high energy group that doesn't fit the mold of the average blues, rock, or funk band. The Boogie Monsters repertoire combines many original tunes with classic songs in the blues and funk genres, but we always add a good dose of that Boogie Monsters stank. We entertain and have a good time. We're open to playing community and charity events and are enthusiastic about using our talents to help benefit organizations that represent a noble cause. The Release of "Live from Yo Mama's Kitchen" has been a great milestone for us. This album has been reviewed as being "original, soulful and fun". Cuts from "Live from Yo Mama's Kitchen" have aired on several radio stations in the North West US, in the UK, and in Belgium, as well as the US national satellite radio service XM Radio. The Boogie Monsters have shared the stage with such acts as Tommy Castro, The Fabulous Thunderbirds, and many more. Based in the Blues and taking it to the limit, We Hope to cross many boundaries and provide a (unstinky) breath of fresh air to your ears.
