Weird Al + Tupac = \$trick9 9 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, HIP HOP/RAP: White-Boy Rap Details: To any of you that still doubt at this late hour that our civilization is being subverted by a ruthless fascist conspiracy, I offer you proof in the form of \$trick9. This abrasive young rhyme-master is the despicable mouth-piece of a vast underground army of the most ignorant, misguided and corrupted outcasts in our society. \$trick9 is the deranged crossbreed of our runaway American Pop culture, which exalts superficial form, shallowness and violence while mocking virtue; and the basest aspects of our contemporary mass media, which promotes these kinds of bombastic demigods. \$trick9s ideology, if it can be called such, is nothing more than hypocritical ranting, pretentious posturing and vapid rhymes devoid of all meaning. In his more livid moments he arrogantly claims to have solved the great social ills of our age. His final solution is as devoid of all humanity as it is ignorant of the intractable class conflicts that cause these ills. To be ignorant of the class conflicts within our society is pardonable, and may be corrected through reeducation and indoctrination into the consciousness of the toiling masses. But preaching a message of hatred, conceit and decadence that only plays into the hands of our oppressive ruling class is unpardonable. Only the heel of revolutionary justice can stamp out such a scourge.
