"You Could Only Imagine The Frustrations That Were Pouring Out Of Me When I Couldnt Find The Ebook Document I Needed To Edit Right Before Our Website Went Live. "Just Think About You Going Live With An Information Product, You Have Affiliates Lined Up To Send Traffic In A Day And You Found A Major Mistake In Your Ebook. " Oh no, I can't find my document to edit. What am I going to do? What, this will never happen to you? I thought the same until it happened to me. I also know of a lot of people on popular forums that are pulling their hair out of their heads because of the same very thing. The last thing I wanted is to look like a amateur in front of my affiliates. Luckily I came up with a solution that save my butt and can save yours as well. I created a program that will suck out all the text of a pdf and create an editable text file. It's a PDF to text Converter, and it is extremely easy to use. Software includes manual and is for Windows Operating System Tags: pdf
