Here are just some of the exceptional benefits of using NicheSponder Salesletter Creator: a) Quickly create sales letters for any niche! b) Create a flawless sales letter even if you are a complete novice. NicheSponder Salesletter Creator guides you through the entire letter creation process so your salespages contain everything they need to in order to compel prospects to buy your product or service - there is a secret formula that all great copywriters use and NicheSponder uses it, too! c) Save thousands of dollars in writing and designing fees for each and every salesletter you produce! d) Skyrocket your conversion rates through the roof e) Format your salesletters with just a few clicks of mouse; you do not even need to have any HTML knowledge! And MUCH MUCH MORE! 2. HTML LockDown Webpage Protector Software - with PLR+Source Code! Here are just a shortlist of the awesome features of this software: a) It does not matter what markup or coding you use to create your websites. Whether it contains HTML, JavaScript, VBscript, Text, Graphics, or Hyperlinks, HTMLLockDown can protect them all! b) The most common way

to steal text from websites is by copying text via right mouse click. HTMLLockDown Webpage Protector totally disables right-mouse click! c) But wait, there are smarter thieves who can still steal your information by using keyword shortcuts such as CTRL+A and CTRL+C. Good news is that HTMLLockDown will protect your websites from these smart thieves too, because along with disabling right mouse click, it also disables text selection! Powerful, is not it? But wait. There is a lot more it can do for you: d) If your page is protected through the HTMLLockDown Webpage Protector software, thieves would neither be able to save your webpage offline nor print it out! e) If you have done or paid for any significant web design work, you know how much time, energy and money it takes to create a unique and professional-looking website. HTMLLockDown Webpage Protector software make sure your webpages retain their value and do not suddenly multiply all over the web - making it look like you have stolen the design of someone else! What more do you expect from HTMLLockDown Webpage Protector? = Do you want to password-protect one or more webpages? = Do you want to prevent people from looking at the source code of your website? = Do you want to protect your download pages from digital theft? = Do you want to prevent your website URLs from showing up in the address bar of the browser? If you said YES to any of the above questions, then HTMLLockDown Webpage Protector is for You! 3. Article Submitter Software - with PLR+Source Code! Just look at everything that comes with your copy of Article Submitter: a) Feature 1: Article Submitter has 138 Auto Fill article directories for you to start posting your articles to! It also has an additional 25 Manual fill articles directory sites as well. b) Feature 2: You will have the ability to edit the included Article Directory submissions sites! What if one of them closes down... you just delete it from the list of directories in the software. What if another Article Directory site starts up that you want to submit to? You just use the Add Directory button and add as many additional sites to the software as you can find! We have 163 Directory sites already loaded in but you are welcome to load in as many more as you wish. No where in any articles you submit will you ever see any mention of us or our software, not to mention the Article Directory owners will not have any idea you used a submission tool, your articles will look totally hand submitted. c) Feature 3: Article submitter does not just allow you to load in 500 articles and hit a button a forget it. Article Submitter software stores all of your personal information, resource box, and articles. It then will proceed one at a time to go to each of the articles sites for you, log you in and auto fill all of your content including your name, your article, your author resource box, even an article summery on any sites that ask for it! You will then need to manually select a

category- this is the only real way to make sure your article ends up in the right place when we are talking about 163 article sites. You then click the submit button and bam... you have just submitted another article and it appears totally manual and natural to the article directory owner which is a must if you want your article to actually get published!
