Singer/songwriter Albert Carey is based in Millbrook, New York. "Ten Cents Curt Of A Dime", which was released in 1999, was recorded at Millbrook Sound Studios, Millbrook, New York. The Slimmer Twins (aka Jody Gray Paul Orofino) produced it. Carey is accompanied by some great musicians in John O'Reilly (drums), Danny Miranda (bass), Tony Perrino (organ) and hot shot guitarists: Johnny Gale, Tommy Burns, Frank Carillo and Al Pitrelli. Except for Traffic's "Empty Pages", all of the songs are originals. The Albert Carey Project delivers white-hot blistering blues-rock with songs like "Catch A Ride", "Big Red Fire Engine", "She's The One" and "Evil, Evil". Even on slower tunes like "Solitary Man" and "Too Blue To Sing The Blues" and "Thinkin' With Your Heart" the sound is great. Albert Carey has a new release in the pipeline. It should be well worth checking out too. - John Bates The Groove (Australia)

----- Blustery and blistering blues-rock, well sung by leader Carey and featuring some clean and mean axe work by guitarists Tommy Byrnes, Al Pitrelli and Johnny Gale. - Blues Access Magazine -----

Albert plays what could be defined as solid rock blues based on the sounds and roots of the seventies. But his music is not always hard, he also knows how to play heavy ballads. Personally, he reminds me of some bands that no longer exist, such as Wishbone Ash. Carey shows power, good manners, elegance, taste, good style and communication and many other qualities that you will discover along the forty two minutes of music on this CD. - Vicente P. Zumel La Hora del Blues Barcelona, Spain

----- Thanks for the CD. I enjoyed this quite a bit. He has an attractive raspy voice and his playing is excellent. I liked the mix of acoustic and electric textures too. - Bruce Igluaer President - Alligator Records
