Real different techno-delic sound with melodic tunes and fresh arrangements. 15 MP3 Songs
ELECTRONIC: Pop Crossover, POP: with Electronic Production Details: Ronald Tucker has fronted many live bands as singer, songwriter, and guitarist. He has released four CDs with two of these bands, Bullwinkel Gandhi and Poppy Nosh. Bullwinkel Gandhi plied the southeastern club circuit and released two CDs "Kung Pow" and "Swirlygig." "Kung Pow"(produced by Mitch Easter) is a tour-de-force of sharp songwriting, layered harmonies, and driving rhythms. Through various distributors over the internet both "Kung Pow" and "Swirlygig" have gained the band, and Tucker, a reputation as a major talent in the Underground pop scene. Not to be limited by only one musical outlet, Ronald is also a founding member of the Psychedelic/pop group Poppy Nosh. Poppy Nosh's two releases are "In The Garden" and "Sour Apples." "Sour Apples", a 1999 release, has two tracks produced by Mitch Easter and also includes him as a musician. Now Ronald is winging it on his own with his new solo band Clone Farm Carnival. This first release is already making ripples in the new technodelic/pop world. Anyone who enjoys thoughtful and clever music indeed owes it to themselves to experience the music of Ronald Tucker and Clone Farm Carnival.
