

## Mp3 Fred Bogert - Songs Of The One Voice

[DOWNLOAD HERE](#)

"We Are the World" kinds of songs and the sounds of people getting together to celebrate music. Tender orchestrated ballads to street beats with lots of folks singing

16 MP3 Songs SPIRITUAL: Inspirational, EASY LISTENING: Ballads Details: I've spent the last two years traveling throughout the Unity community with the One Voice Workshop, a gathering of mind and heart- opening energy that fosters musical perception and creativity. This album is a collection of songs that were birthed by this process. Many of the songs are sung and performed by workshop participants, on site and in the comfort of their company. All the recordings were refined and completed with various talented singers and musicians in our Louisville studio: The Briarpatch. You'll hear a variety of styles and productions in this collection. Some are very close to the original event recordings, full of the sound and energy of the moment. Others are studio recordings that were made in the Briarpatch. They all come from the infinite resource of fellowship and prayer that is truly the seed of the One Voice. Enjoy!
