Progressive Rock, Psychedelia, Hard Rock 10 MP3 Songs ROCK: Progressive Rock, ROCK:

Psychedelic Details: Karma-Kannix blend elements of progressive rock, psychedelia, fusion and metal.

The music is heavy guitar and synth laden with Mellotron and Hammond textures. Vocal harmonies, reminiscent of Yes, Pink Floyd, and the Beatles are also present. On Karma-Kannix's first installment,

Explorations in Inner Outer Space, the sound and styles of the songs have been likened to

Bowie(Ziggy-era), Yes, Pink Floyd, The Beatles, Deep Purple, Rush, Genesis, Zeppelin, U2, Metallica.

Karma-Kannix have approached these influences with tight punchy tunes which rarely exceed 5 minutes.

Additional information for the group can be found at karma-kannix.com.
