Details: This would be a great CD for your Country/Americana loving friends. Look what some people are saying about Lee Gibson: Quoted from babysue- "Very strong debut from a new country artist with a hell of a voice and a real knack for writing catchy tunes. Lee Gibson kicks this album off with what ought to be a hit. "Tennessee Rain" is an excellent upbeat country pop number with a great melody and excellent harmonies. But that's just the beginning, as Somewhere Other Than Here sounds very much like a non-stop string of country/pop hits. Other standout tracks include "What Else Could You Do," "Does She Know," and "Somewhere Other Than Here." The production is excellent, and the guitars are loud and up front in the mix. the music inside is all Grade A stuff... (Rating: 4++)" "Classic!! Good voice, good guitar. Classic country." -B.L., Baltimore, Maryland (About Tennessee Rain) - "This is no amateur!!!....country star enclosed. ...it rocks!!! I love it. I thought it was great. The blend of instruments...the beat... the country voice. You have got it going on. Good luck!!! " -T.E., San Antonio, Texas It's something that I'm sure many an American can relate too. It sounds like something that would be on the radio. -H.B., Calgary, Alberta, Canada "This song(Tennessee Rain) is very good. It is up beat and would be great to dance to. (our 3 year old loves it, he is dancing all over the place)". Chasity - Hiawatha, Iowa "Sweet sounding voice. I just love this song. I love who sings it. It goes so well w/the music.
