MUST HAVE ALBUM OF THE YEAR...Contemplative pop/rock with a diverse style ranging from Sheryl Crow to Avril Lavigne to Michelle Branch. Well crafted, hit packed album. 11 MP3 Songs ROCK: Roots Rock, POP: Beatles-pop Details: Lesley Wright's first offering, 'Firefly' is a wonderful collection of jangly, contemplative pop/rock songs ranging from melodic, dreamy ballads - to power pop - to edgy, straight ahead modern rock. 'Firefly' includes the amazing guitar talents of former Gin Blossom, Scott Johnson who also co-wrote two of the album's songs with Lesley. In addition, PH Naffah, former drummer of another Arizona band The Refreshments, lends his slamming drumming skills to the record. This is a well-crafted album and a sure bet for anyone who is a fan of the Sheryl Crow, No Doubt or Jewel. --- "Lesley Wright just may be the next female pop rock superstar...She has a great voice, intelligent lyrics, great back ups and a slightly twangy guitar." -- MP3Reviews.com "Music ranging from mellow folk to straight up mid-tempo rockers from an impressive singer and her solid band..." -- Listen.com "Cleverly written, expertly executed slice of perfect pop-rock...'Firefly' is definitely worth more than just a cursory listen..."
