Making people feel good, get up and dance and have fun is what I'm all about. And that's what he's been doing ever since he was young. By the time he could talk, he was singing along with any song he heard. By the age of ten, he got a guitar and started singing and playing with local bands in clubs. Needless to say, he's a truly experienced professional. I grew up listening to my dad's records. Country legends like Johnny Cash, George Jones, Merle Haggard, Waylon Jennings, Hank Williams, Buck Owens and Ray Price were big influences along with today's artists like George Strait, Alan Jackson, and Dwight Yoakam. I have the ability to touch other people's lives through music which is a great gift. To me, music is life. Luther has dedicated his life to music in all aspects. He's a singer, songwriter, and musician. His talents were recognized when he moved to Nashville, TN and started playing local clubs. Soon after, he hit the road with various artists including Blake Shelton and Trick Pony. From across the states to across the seas, he has had a lot of touring experience under his belt. I was fortunate to perform with some of the best in the music business. I believe to be the best, you learn from the best. And he has learned well, opening shows for countless recording artists. Now, he has released his first solo album written from his heart about love, heartache, and life.
