Related styles: NEW AGE: Ambient, NEW AGE: Relaxation People who are interested in Enya Yanni Thomas Newman should consider this download. Details: Finally in 2009 MATURO decided to put all the piano pieces from the three previous albums Sanctuary, Forever, and Carpe Diem into one compilation album. The album Piano all the Pieces also boasts three unreleased tracks Love, A Promise, and So Lost which will be on the forth coming album entitled Infinity. People for years have been telling me that they love all the piano tracks to relax to and how they wished that I had a piano only album, so I decided to take their advice and finally put one out. I truly hope that people will enjoy and find solace in this project! Piano all the Pieces is definitely a very emotional and calming album to listen to. From the day spa, to the yoga class, to lounging around the house, or to just sitting in traffic, you will enjoy every minute of this album.
