

Metastable States In Amorphous Chalcogenide Semiconductors

[DOWNLOAD HERE](#)

Introduction.- Effect of Thermal Evaporation Conditions on Structure and Structural Changes in Amorphous Arsenic Sulfides.- Optical Absorption and Structural Transformations in Arsenic Selenide Films.- Trap Level Spectroscopy in Amorphous Selenium-Based Semiconductors.- Photoinduced Effects on Electronic Metastable States.- Deep Level Spectroscopy in Selenium-Rich Amorphous Semiconductors.- Recombination Process and Nonisothermal Relaxation of Low-Temperature Photoinduced Effects.- Electronic Properties of Materials with Gross Permanent Photoinduced Changes: Cu-As-Se Glasses.- Carrier Transport in Selenium-Based Amorphous Multilayer Structures. EAN/ISBN : 9783642027451 Publisher(s): Springer, Berlin Format: ePub/PDF Author(s): Mikla, Victor I. - Mikla, Victor V.
