If you like country music like it was, not like it is, this is for you. 10 MP3 Songs COUNTRY: Outlaw Country, COUNTRY: Traditional Country Details: A great cd featuring real country music from the 80's. This is a cd you are sure to enjoy, if you like country music, as it should be played. This cd features the finest Nashville musicians you would ever want to hear. I am very proud to say that on piano is the great Hargus "Pig" Robbins, a Hall Of Fame musician who has played on all the big hits from Nashville. I am equally as proud to have Pete Wade playing the lead guitar. Pete has played on more songs from Nashville songs than you can count and will continue to play on many more I am sure. It was my fortune to have the great Joe Spivey on fiddle. What a stroke of luck and good fortune. Joe was nominated for 2 Grammy awards this current year. A great player and a gentlemen. I was lucky on drums as well. I was able to have Tommy Wells, who has played on many, many great Nashville hits over the many years he has been in the business. Very nice work Tommy, and I hope we can do more. I had the great Duncan Mullins on bass, listen to the smooth changes, and for giving directions. Good job on both Duncan, and maybe we can do another. If you like pedal steel guitar, and listen closely, I probably do not need to tell you who that gentleman is, playing the instrument, but I proudly will. Ladies and Gentleman that is the great Llyod Green. I do not think there was a country song that came out of Nashville during most of the 1960's, 70's 80's and and much of the nineties that you did not here that steel playing away. I can only you tell that he is a wonderful person, genuine article, good advisor, and one heck of a blackjack player. I do not know what to say about the rythmn player, since he is also, the producer of this cd. How do you thank someone who calls up and says "Let's do something", and then asks if you want good musicians, starts naming a few of them, and then pours his heart into your project. Folks, that kind of caring, and dedication to someones else's project is what we could use more of everywhere. Mark and Donna Kay

Moseley, Thank You for pulling this together for me. You are good people and deserve all the credit for this project. I need to mention two more people who make the nice background vocals. They would be Justin Ryan, and Lori Brooks. Thanks to you two for make me sound good. Remember folks, the musicians on this cd are very important to the outcome of the cd, we cannot do it without them, and they deserve your recognition. Thanks, Casey Dilworth People who are interested in Vern Gosdin Don Williams Waylon should consider this download.
