Vividly imagistic, richly layered lyrics with eloquent and fiery guitar accompaniment brimming with ideas from a variety of musical sources. 12 MP3 Songs FOLK: Modern Folk, POP: Folkly Pop Details: "By the time the listener is halfway through the first track he or she becomes aware that Daniel Jacobs is not only a tremendous musician but also a bit of a magician. The spell he casts falls with the beauty of a morning rain. His fingers weave melodies with the intricacy that a spider would weave it's web, but in this web is caught not flies, but ones imagination and heart." Chris Mac Vittie
