Details: Gregg Hansen (solo fingerstyle steel string acoustic guitar/ arranger/ composer) Celtic and Nostalgia GuitarSoft Sounds For Any Occasion Gregg Hansen with his Acoustic Guitar creates a mood that fills that space just below conversation level and just above silence with pure and natural instrumental guitar music. From the Beatles to John Denver from Ballads to Irish Jigs ---- Gregg sets a mood of nostalgia that touches the generations..Classics with a Classical Flavor.... -- or just --Good-ole fashioned--Finger Pickin'--Guitar Music.....no matter what you call it.....even though its instrumental music....youll find yourself singing along..... Gregg Hansen has played a lifetime of music. Growing up with guitar influences such as Jerry Garcia, Jimi Hendrix, Chet Atkins, George Harrison, and Paul Simon has put an edge on Gregg's guitar playing that only 'being there' could provide. The feel of the sixties with the experience of 45 years of pickin' adds up to a smooth, mellow, musical guitar style. Although Gregg's music is instrumental - he is always mindful of the lyrics. His favorite thing is to play arrangements of popular songs with lyrics of peace and consciousness so that the lryic will appear in the mind of the listener - as if it were being sung.
