Remember the world can never have enough crappy Bloodhound Gang rip offs! Here are some facts

about the King Kobras: Our singer is obsessed with the movie Brokeback Mountain Our lead guitarist is the least talented individual since Lupus Thunder The band bassist is a booze guzzling, misanthrope The

recording budget for our upcoming cd wouldnt buy a decent lunch All outside collaborators with the band are of questionable moral stature Our label is making us hold a neighborhood car wash to raise funds for

an up coming tour We often pass out our demos at P.T.A. meetings hoping rebel teens will like anything their parents hate The band once was arrested for group drop kicking a midget on Small Peoples Rights

Day Our drummer relies heavily on electronic trickery to perform Every member of the band really should

go to rehab This is what we think we sound like only crappier! Prodigy, G-Unit, Lords of Acid, KMFDM,

Thrill Kill Kult, Mike Jones, Fat Boy Slim, Beastie Boys, Ministry, Thugs, Gangsters and Ravers!
