Pop/country with an American response to the terrorists: watch your tails. 10 MP3 Songs COUNTRY: Country Pop, POP: with Live-band Production Details: Electric! Patriotic! Monumental and Victorious! This music's deep-dancing country/pop magically creates stars and stripes wherever it is played, and it's crowd-pleasing appeal grooves so deeply that it prompts all beholders to burst into applause at the imaginary fireworks and incites them to cheering in the streets! It is contagious in it's melodies and it's rhythms. Heal Your Broken Heart is THE album for all those in need of a good laugh, a good tune, and a good time! The musical foundation of the CD is drums, keyboard, and guitar (especially that lead guitar!) but songs also include strings, organ, and trumpet. Influenced by the classic genius of the Beatles, the charming flare of Shania Twain, and the inspirational simplicity of Faith Hill, the combination of smooth instrumentation and traditional harmonies adds texture and spice to the vocals, which often encourages listener participation (sing-a-long!) The clever blend of pathos, energy, and brightness is reminiscent of your favorite Broadway musical - remember the longing of "The Phantom", the colors of the "Lion King", the bedazzle of "42nd Street", and the sheer spectacle of "Mama Mia"! All of this emotion and excitement is anxiously calling you and soon, the red/white/and blue-winged Pixie of Patriotism will be whispering in your ear and tugging on your heart strings in this contemporary tribute to the American Experience. It is the premiere album of our time and it is sure to light your dancing shoes on fire!
