Details: Just when you thought it was safe to lay down the tennis racket and step away from the mirror some idiot comes along and writes new guitar instrumentals. Hello. Ive played in several bands over the years which have featured rock, blues, country and close harmony vocal music. In many respects the songs on this album reflect that. My first love was the music of The Shadows an English instrumental group from the 50s. My passion for the melody, energy, emotion and humour that their music embraced is still with me. Other artists who have influenced me greatly are Elvis Presley, Mark Knopfler, Albert Lee and John Farrar to name but a few. All the songs on the album are original there are no covers. They are heavily melodic with arrangements that have a few twists, turns and surprises. Within them can be heard the rock, blues and country influences that are now a permanent part of my musical mindset. I sincerely hope you enjoy it.
