The focus of our latest work is on Asia. Amplifying on themes presented in Whirl [2007] i.e. India and koto rock [re-released], the listener is offered contrasting musical views from East and West in structure and genre, reflecting cultural differences, yet paradoxically similar. Contrast inner-laced [koto] to baroque [harpsichord]. Though stylistically very different, yet alike in formality i.e. cultural views balanced with an almost mathematical symmetry. Similarly are the tabla and steel drums of Carribbe. Also included are single tracks, which fuse east and west. Jamaica East brings reggae to Japan, while Asian winds fuses the cultures broadly in contemporary fashion. Interspersed are direct contrasts . Note blossoms / Warsaw: Each sets a culturally reflective ambience. As in other CDs, the opening track blossoms is the introduction for this in- House Concert. Journey with us from the cherry blossoms of Japan to the by ways of Beijing [tappas Beijing] to the streets of urban India [India] and in juxtaposition to Western counterparts. Journey through cultural variations of classical, rock, jazz, reggae and in the resulting WORLD FUSION. Whirl ASIA represents the 6th release of our inn-house Concert series.
