

Mp3 The Phillips Brothers - Poverty & Pain

[DOWNLOAD HERE](#)

All original rockin' blues. Sounds a little like ZZ Top. 12 MP3 Songs

BLUES: Rockin' Blues, **ROCK:** Modern Rock Details: "...Reverberating, electric riffs drive this band's aggressive, rugged rock. Chris' sandpaper vocals exude gritty determination..." -AM Good Times Magazine

Dear Chris, Sorry for delaying of my answer, thanks a lot for your wonderful music gift, your CD is excellent, according to me is very good mixture of blues and classical guitar rock with the great ballads, I like blues but not pure blues it seems to me little bit boring but your music is typical american music product so missing on our music market and in whole Europe too. I listen your record in my home music bar with a glass of good czech beer for several times and seems to me better and better after every listening. I ordered another one from CD baby for my good friend who enjoyed it too. Like a former radio manager I would like to present your music in some of our alternative radio stations or in clubs and try to find some useful music contacts in Czech rep. I hope me and your other fans here will have a chance to see your live show someday. I wish you and Phillips brothers a piece of success in your musical career and in your personal lives too. Give my best regards to the rest of the band and keep rockin' your friend in Czech Rep. ---Jan "You guys are really good. Great song, great lyrics, really good vox. Cheers" ---Weezy "Dug it! Best wishes and much fortune to you all. Stay Cool!" ---M. Haviik/ Spiders and Snakes

"The Phillips Brothers" cover a lot of musical ground with their original songs. It's hard to sum up their style in a just few words. The music has a positive feeling, that isn't exactly like anything else. The Phillips Brothers are most often compared to the band "ZZ-Top." The band was formed in 2001. Mark Chase (an accomplished guitarist in his own right) agreed to play the bass guitar and joined the Phillips brothers to create what became the new Alternative - Blues - Rock band. "Poverty Pain" is the product of a year's work. All twelve tracks are original songs by the group. No "remixes" or rip-offs. You can tell by listening to the songs that some thought went into

writing them. The project features master saxophonist Tom Riggs and keyboards by Ted Levine. Enjoy!
