The funniest/wierdest record since The Bloodhound Gang and Wycleff spent a weekend in the Hamptons. Demented/clever humor that will have you laughing in your piss-stained panties. Formerly called BVX. 8 MP3 Songs POP: Quirky, HIP HOP/RAP: Alternative Hip Hop Details: BVX is now called VAGIANT! New name, same idiotic music. The first album from the visionary idiots of BVX, this is the funniest/weirdest record since Jack Black and Wycleff spent a weekend in the Hamptons. The demented yet clever humor will have you rocking and rolling all over yourself with laghter while you shake your one good leg to the toe tappin' beats. The album features such classics as the following: The epic Mexican folklorico of the insatiable "El Lardo" is an anthem for the obese youth of the Americas. The pre-apocalyptic rageous rap of "Gates of Hell" will leave you chanting "Bill Gates is the Devil" with the rest of your emasculated, red-eyed co-workers. And of course, the Wisconsin Dairy Council's hit of the year "I Love Fuckin' Cheese" will have you looking at that brick of Swiss with newly amorous eyes and wondering if its holes are big enough. BVX is now called VAGIANT! Check out our sophmoric second album "Sex Invasion" at cdbaby.com/cd/bvx ALSO THE BRAND NEW VAGIANT RECORD AT cdbaby.com/vagiant
