Boost Your Sales Whilst Building Your Own Powerful Opt-In List It is extremely hard to personalize a sales letter that involves a general audience. Copywriters have nothing to do with persisting with potential customers. The Squeeze Page Generator solves the problem of miserable response rates, pitiful sales, loose change for profits and an emailing list of two or three! This ingenious yet simple little program harnesses the power of The Two Ps with the end result of boosting your sales beyond recognition and collecting literally thousands of opt-in email addresses. The Squeeze Page Generator creates PERSONALIZED copy by collecting information about your customer and using it throughout the course of the sales letter. These personal snippets of information are used in such a way they are almost undetectable to the reader! Once you have the customer's undivided attention, you are more likely to succeed in persuading them that they absolutely NEED your product. The program also provides a means to PERSIST with the sale by collecting opt-in email addresses. You can then put the figures of 7 visits before a sale behind you with personalized reminder emails! In only two minutes, you can have a fully functional two page professional sales letter that will speak directly to the visitor and provide you with the exact information you need to follow up the visit. The Squeeze Page Generator is unique. Its easy-to-use step-by-step layout makes creating a professional and persuasive sales letter a breeze. Even if you can't deal with emailing lists for the time being, no problem! Just collect the customer's name and incorporate it, using the program, into page 2 of the sales letter for a hard-hitting sell! The only thing you need to produce top-notch winning sales letters is your imagination: Play with different widths, colors, borders, headers, fonts etc. Choose the text you want displayed on buttons and headers Set which download site to direct your customers to once they decide to buy Enter your current Autoresponder program details to run your opt-in email address collector automatically! Automatically collect personal information to grab your visitor's attention without being invasive! Place collected personal details throughout your sales letter to pinpoint individual traits, likes and dislikes and use them to close the sale, without having to figure out the codes yourself! Personalize your words with specific individualized details dotted throughout your copy to speak directly to your visitor and tell them, personally, why your product

should be theirs. Collect endless contact details to follow up on visits and promote new products, and achieve all this in 2 minutes! Type in a few simple details, click a couple of buttons and post the resulting sales letter, then sit back with a cup of coffee in your hand and watch your sales hit levels you could only have dreamed of!
