Vibe-oriented progressive rock that covers the entire emotional spectrum 10 MP3 Songs ROCK: Progressive Rock, ROCK: Modern Rock Details: In a time when most bands rely on formulated stereotypes of other popular bands, BlueToneVibe rely on a unique ability to create sonic landscapes that bring their audience to another musical plane. Formed in June 2000 by Andy Bubenik, Jason Fisher, and Wayne Green, the band has been focusing on their live performances as well as their song writing in order to create an atmosphere that enables their audience to be swept through a whirlwind of emotions. Hailing from Northern New Jersey, this trio creates vibe oriented rock that covers the entire spectrum of music. From in your face hard rock songs such as "Out of Nowhere" and "Track 8", to the ethereal sounds of "When I Dream" and "Aurora", or to the extremely melodic "Spiral Down" and "Oasis", Blue Tone Vibe offer something for everyone- a throwback to the classic rock era when any form of music could be thrown into the mix. Jason's classical background offers a unique sense of harmony and melody, while Wayne's heavy interest in the funk and R&B of the 60's, and 70's allows him a commanding sense of rhythm. Andy has been influenced by the classic rock drummers of his day such as Neil Peart. Together with his use of finesse and dynamics, he and Wayne lay down a solid foundation for Jason's intricate chords and melodic vocals. Engineered by Dae Bennett and Dave Kowalski of Bennettstudios, and mastered at Beanstudio by Jim Desalvo, Bluetonevibe's debut CD "OUT OF NOWHERE" has set out to reintroduce people to the diversity of bands such as U2, Pink Floyd, and Led Zeppelin, and to go further... to push the boundaries of popular music as well as challenging themselves as musicians.
