Minimal psytrance colluded with progressive beats and snapping breaks 14 MP3 Songs ELECTRONIC: Trance, ELECTRONIC: Breakbeat/Breaks Show all album songs: Komputer Muzic Songs Details: Welcome friends and felines. Komputer Muzic be mixing psytrance around with breaks and electro, this music is like nothing else, in a mad wonderful way. Funky with deep interludes, crazy and can't stop dancable, its all you need for a summer of forest frolicking...... EQ AKA Sha S, has been a local sydneysider since arriving on these shores many moons ago, coming to us from the holy land of Israel via an exhilarating journey around the 8 corners of the earth. Playing in parties and clubs in India, Japan, Israel and Australia over the past few years, alongside the likes of Etnica, Atmos, Skazi, GMS, Infected Mushroom, Astral Projection and many more. He has also released original music on USTA, Krembo, Flying Rhino, Electric Monkeys and Green Ants. Although being involved in the psytrance scene for so long, Sha has always had a love for electro and breaks. Having a rest from the whole scene has helped him to focus on making the kind music that tickles his fancy, and not having to fit it into anything in particular has given his music a freedom which has diversified into two very different sounds and resulting albums. Enjoy the journey, much obliged to have you along..... Jungo Records is an Australian label, started in 2006. We are an electronic music label, based in Sydney's Eastern Beaches. Our label will release music from a broad spectrum of electronic styles, ranging from progressive house, electro, psytrance, breaks, tribal, and funk. We see ourselves pushing boundaries across the world, while keeping our roots firmly in getting Aussie music out there into the international scene. Stay with us as we begin our elemental peregrination through time and space.
