Details: Tuneful and precise, as usual, the songs take their own path and are not restrained by preconceived arrangements or production. This results in a tasteful album that rocks with a rootsy energy and remains refreshingly new. "Fish" kicks off with a tribute to the late Rick Danko and manages to weave in elements of jazz, blues, Americana, folk and rock as it cross fades from story songs to road songs and beyond. Guitars, bass, and drums support beautiful singing and superb harmonies (enhanced by the voice of Claudia Scott).
