Injecting hints of '60's psychedelic and melodic '70's pop into today's musical vein. This is one of those bands that when you see and hear live, you will do a double take. Is it the stage presence of their lead singer, keyboard player, harp player - Paul Martini or is it the heavy vibrating pulse of Autumn Martini - Bass, Jeff Hines - Drums and Ed Ethridge - Guitar. What ever it is MartiniBand has found a way to forge the word creative back into rock and roll. In 1998, MartiniBand set out to rock the South Florida music scene by giving it a long awaited creative burst of musical energy. Playing all over South Florida, opening for bands like Jefferson Starship, White Lion and Love Electric while supporting their 98' release "Eclyptic Playground".
