A must have if you love Christmas. This Cd actually started out as a gift from Marty to all his family and friends. He made a 3 song tape to give out and got such an incredible response that it was a must to do a full length CD. Marty teamed up with Bill Rowen who is a master at production and sounds and the goal was to make a Christmas CD that was very warm and easy to listen to... Soothing. After months of work it came to be and was named "Sentimental Christmas." It takes you on a trip and sweeps you away with the sensual sax and soothing piano and strings. The CD at some time will be a soundtrck for a movie. The movie is being written. The song "Blue and White" (an original piece) is a part of the movie that the leading lady gives birth to a baby boy...The music is dramatic and melencholy at the same time. For one song Marty teams up with Chris Davis who has toured with Brian McNight (who has had a few top 10 hits in the 90's and 00's) Chris also works for Stephen Spielberg ya this is not a misprint. He does soundtrack work for him. You will find this CD so beautiful to listen to that you may be admitting that you want to hear it all year round and not only at Christmas time.....
