Mp3 Mike West - Cornbread And Caviar

DOWNLOAD HERE

From traditional country with fiddles - to modern country pop with lots of backup vocals. Rock a little with the hot guitar on Something's Goin' On. 10 MP3 Songs COUNTRY: Traditional Country, COUNTRY: Modern Country Details: Cornbread And Caviar-first record from Mike West. After playing the "top 40" bar circuit in and around Kansas City, and often hearing that he should be doing country, Mike began to write his own material, and was surprised to see that what he was writing was indeed "country"! God Bless America, My Mom, And Country Music tells how it all started. Mike's earliest musical memories are of Country Music greats like Porter Wagoner, Kitty Wells, Jim Ed Brown, Hank Snow, George Jones, and Little Jimmy Dickens to name just a few. Growing up listening to Motown, Bubblegum, Soul, Rock and Roll, Beach Music, Car Music, Folk and Pop, widened Mikes style. This album tells you where it came from-Where it's going is impossible to say. One thing's for sure. It's good stuff. It's not like anyone else's. It's pure MIKE WEST.
