Electronic meets Intruments and Composition 16 MP3 Songs ELECTRONIC: Soundscapes, JAZZ: World Fusion Details: Marco's comment: "This production is very special to me, 'cause I found a new 'work mate'" - Mario Brinkmann. We created this piece of music with lots of fun, time and without any pressure. Most of the stuff was planned to be released on my forthcoming solo CD. But with Marios unique Soundscapes the whole thing got a new definition. So from now on we worked as follows: a) each of us brought an idea and we completed it together; b) tracks like Xperiment or Document were written note for note together. Mario is responsible for sounds and synths programming. I played all the instruments. Enjoy this unique piece of music Marco"
