This is the 2008 second (2) CD by Praz Boszanova; Let The Music. This CD is filled with hot new songs of love, life and the pursuit of dreams. Smoking with fat dance songs and thick balladry, to keep the listener in a grooving ride of musical pleasure and enjoyment. The title song Let The Music is a vicious Street smart urban cut, with the fatness of the life and sound of dance and music we need and live. The ballad Power of U, is a smooth take back/to time of thick feelings and real hand holding grooving with your special one. These are just to name a few. Got to get up, is a Ugly dance piece that hollas out at "DC and all the city and towns all over; and commands that you drop the BS and let some stress go.. After listening I am sure you will agree, that all of these songs are of the quality that you deserve and at the level of entertainment that your musical appreciation requires. Nuff said, I invite you to hear for yourself. You make the call... Im sure you too will agree this is the caliber of music that you richly deserve. Thanks again for the hit and I look forward to providing you with more quality music.
